

NIKITA PATIDAR

Data Scientist | Indore, India 452001

nikitapatidar957@gmail.com • <https://linkedin.com/in/patidar-nikita183> • <https://github.com/nikitapatidar> • portfolio

Summary

Data Scientist with 2+ years of experience in Machine Learning, Generative AI, and Agentic AI, proficient in OpenAI and Hugging Face technologies, and developing scalable AI solutions that enhance efficiency, boost accuracy, and deliver measurable business value

Technical Skills

- **Programming Languages:** Machine Learning (ML), Deep Learning (DL), Natural Language Processing (NLP), Computer Vision, EDA, Generative AI, Large Language Model (LLM), LangChain, Agentic Frameworks (CrewAI, LangGraph), Prompt Engineering, Python, Flask, DSA, RAG
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Cloud & Tools:** AWS, Azure, Hugging Face, OpenAI APIs, LangChain, Pandas, NumPy
- **Others:** Data Visualization, Git

Work Experience

- Data Scientist**, Xalt Analytics Pvt. Ltd. | Indore, India 02/2024 – Present
- Mentored 2 junior data scientists, coaching them on prompt engineering, pipeline optimization
 - Optimized Q-Gen model accuracy from 76% to 85%, enabling the generation of high-quality math assessments while reducing content creation time by 60%.
 - Partnered with 4 data scientists to architect scalable NLP workflows, standardizing processes and improving cross-campaign reliability.
 - Decreased manual effort by 60% and boosted engagement by 30% with xSmart.
 - Eliminated all spreadsheet workflows with Query Engine (CrewAI), improving decision-making by 40% and reducing errors by 35%.
 - Led a cross-functional team of 5 engineers and analysts in deploying scalable LLM-based predictive models on Azure.

Projects

- Smartify Media Agents**, Xalt Analytics Pvt. Ltd. | Indore, India 07/2025 – 01/2026
- Built a multi-agent AI system that processes natural language media planning queries and returns results in <60 seconds
 - Integrated PostGIS + Google Places API, enabling real-time POI discovery and proximity targeting across 1,507 DOOH displays in 213 US cities.
 - Developed an AI engine that returns requirement-based DOOH displays, improving targeting precision by 35% over manual planning.
 - Implemented AI-driven budget optimization, generating CPM and impression forecasts that Increased campaign ROI planning accuracy by 30%.
- xSmart – Automated Email Generator**, Xalt Analytics Pvt. Ltd. | Indore, India 01/2025 – 05/2025
- Engineered a scalable AI-driven email generation platform leveraging LangChain, OpenAI API, Hugging Face, and Groq, automating personalization for 2K+ user profiles and improving campaign efficiency by 40%.
 - Minimized manual workload by 60% and boosted personalized, data-driven engagement by 30% by leveraging AI to extract insights from diverse data sources (PDFs, links, text).
 - Enabled integrated email delivery and performance tracking, capturing key metrics (open rate, click-through rate, engagement) and increasing overall campaign ROI by 25%.
- Q-Gen – Question Bank Generator**, Xalt Analytics Pvt. Ltd. | Indore, India 03/2024 – 12/2024
- Designed and deployed an AI-driven platform that generated 3K+ advanced math problems monthly with detailed, LaTeX-rendered solutions, integrating LangChain, Hugging Face, OpenAI, and SSMS for end-to-end automation.
 - Enhanced accuracy from 76% to 85%, substantially enhancing reasoning quality, reliability, and overall content generation efficiency by 40%.
 - Engineered a scalable, intelligent online question bank generator with advanced NLP capabilities, boosting automation by 50%, precision by 25%, and consistency across all outputs.

Education

08/2020 – 05/2024
Bachelor of Technology (B.Tech) in Computer Science | Sushila Devi Bansal College of Technology, Indore | 8.45/10 CGPA
